## SUMMARY

With over 1 year of fresh experience in web design and development, I have honed my skills in UI/UX design, front-end development, and conversion rate optimization on backend.

## PROJECTS

### Pragma

07/2023

<https://pragma.how/>

Noida, India

- I designed and managed the **frontend development**, where the client shared reports of 10% more engagement on the website.
- Integration the Podcast feature is the more challenging integrating with backend (Restful API's).
- I got experience to design the backend were following the requirement & architecture under of database is quiet exciting for me, utilizing Django admin panel & more advantages of **Django Rest Framework**

### Denama

11/2023

<https://denama.com/>

Noida, India

- Implement the redesigning of the project where project should have the user friendly UX, also add some addition feature on UI to make better User Experience.
- The way engineered frontend the optimization rate increased by 10%.
